But I am not "good enough" for a bowling league. WRONG! - Here's Why!

Everyone is "Good Enough" for a League. Here's WHY!

Bowling Leagues use a Handicap Scoring System, to allow for bowlers of different ability levels to compete fairly within the same league. For example a league that uses a 100% of 200 system would work as follows. A bowler who averages 130 will receive 70 (200-130) bonus pins (pins of handicap) added to their score. A bowlers average and handicap will be adjusted each week based on the overall score and number of games. The computer scorers will calculate your handicap for you. Your job is to just have FUN!

When do I receive my new bowling ball ?

Balls for short season leagues will be distributed toward the end of the league. Balls for full season leagues will be distributed at the half way point in the league.

What if I want my new ball sooner ?

No problem - just pay a \$25 rush fee and you will have your ball within 1 week. Why do I have to pay a rush fee? We are able to get a far better price from the supplier when ordering in bulk. When a ball is rushed the price is considerably more.

Why do millions of people all over the country join leagues each year?

- "To have FUN!"
- "To meet new people"
- "To get out of the house"
- "To relieve stress"
- "An excuse to drink beer with friends"
- "To become a better bowler"
- "For the competition"

Bowling is America's #1 Participation Sport 70 Million people per year

Most of the league listed have separate full detailed League Information Sheets Please ask Customer Service Desk for the information sheet you are interested in.
