# How the \$\$\$\$\$ works

In this example we will assume the group sells 120 tickets (teams of 2)  
(One ticket covers both bowlers)  
and they sell 20 lane signs and run 50/50 and silent auctions.

40 lanes would be used (3 couples per lane) = 120 teams of two bowlers.

## Ticket Sales:

Your group sells the tickets for \$45 per couple

Your profit for each ticket sold is \$25.

$120 \times \$25 = \$3,000.00$

## Lane Sign Sales:

Your group sells 20 lane signs at \$100 each

(cost to make sign \$20) Profit is \$80 per sign.

$20 \times \$80 = \$1,600.00$

## 50 /50 Raffle:

50 /50 Raffle With 240 people you can estimate that  
each bowler will spend at least \$5 on 50/50 tickets.

$240 \times \$5 = \$1,200.00$  (half to the winner)

Half is your profit = \$600.00

## Silent Auction:

Silent Auction Revenue: Groups solicites prizes / baskets.

Group then runs a silent auction for these items.

Depending on the quality of the prizes most groups will raise between  
\$500.00 to \$2,000.00 on silent auction items.

## Recap:

Ticket Sales Profit - \$3,000.00

Lane Sign Sales Profit - \$1,600.00

50/50 Raffle Profit - \$600.00

Silent Auction Items - \$1,000.00 on average
